

## Gateway Solutions from DSR

DSR's Gateway solutions are central hubs: managing your IoT devices & connecting them to each other, the cloud or other backends.

## Raspberry & Orange Pi to Gateway

The Gateway SDK from DSR is downloadable software development kit that turns Raspberry or Orange Pi devices into gateways that are compatible with Zigbee Certified devices.

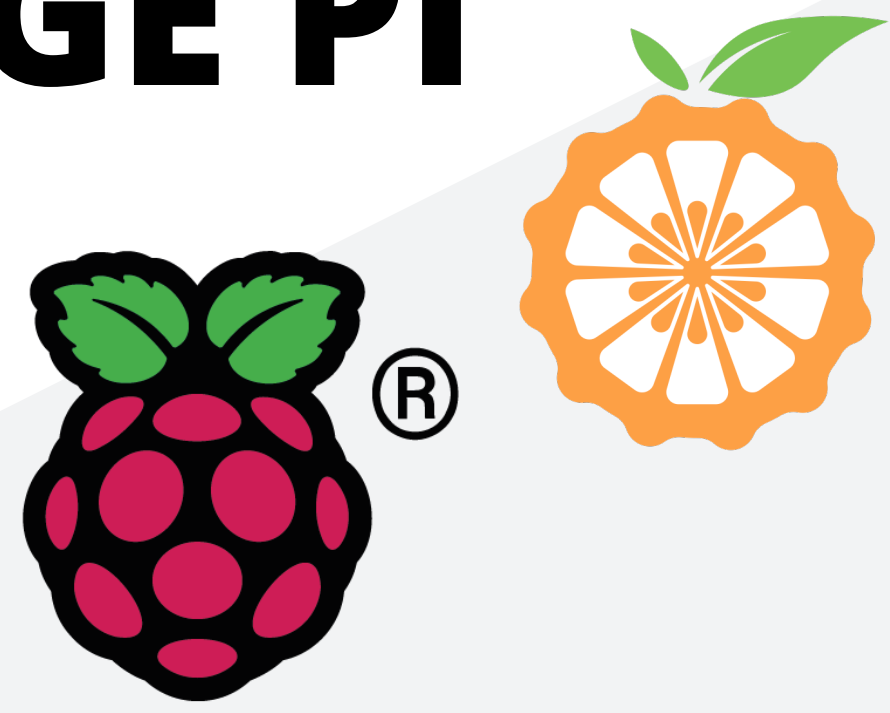

## Fast & Simple Development

DSR's Gateway SDK is designed so that you only download solutions that fit your specific deployment needs. Our Raspberry & Orange Pi SDK is the ideal solution for fast, small-scale Zigbee Development like small batch development, proof-of-concepts (PoCs) and product demos.

## Features

- OS image that includes SGW Middleware
- OTA Upgrade functionality
- Compatible with 3rd party clouds through integration layer
- Plug & Play with CSA certified devices
- Works with Nordic ZB dongle
- Self-diagnostic module
- Entire IoT solution can run without internet connection
- Can be extended to handle other wireless protocols

# GATEWAY FOR RASPBERRY & ORANGE PI
